

Temposonics®

Magnetostrictive, Absolute, Non-contact
Linear-Position Sensors

C-Series Model CS/CM with IP 67 Housing Analog Pulse

Document Part Number:
550899 Revision D

Data Sheet

Model CS/CM with IP 67 Housing position sensor
Stroke Length: 72 mm to 250 mm (3 in. to 10 in.)

CS/CM Sensor in Liquid Tank

Medical Fluids Unit

TEMPOSONICS SENSORS PROVIDE THE CONTROL

The medical community has unique cleanliness and disposal requirements for treatment fluids and body waste. MTS Temposonics sensors with floats are used very successfully in medical applications requiring fluid measurement in both large and small tanks.

Output can be analog or digital to interface with any controller communication requirement. Measurement lengths range from under three inches to six feet or more, all allowing high-accuracy control for fluid management systems.

All specifications are subject to change. Contact MTS for specifications and engineering drawings that are critical to your application. Drawings contained in this document are for reference only. Go to <http://www.mtssensors.com> for the latest support documentation and related media.
